VALUE ADDED COURSES 2019-2020

About Value-added courses

Jeevan Vikas Mahavidyalaya offers a diverse range of Value-added Courses with the aim to develop the student's holistic perspectives and understanding of the current industry challenges. These new edge course aim to prepare the students with the latest technical knowhows & employability skills for them to meet the needs of dynamic business world. The courses are designed by the internal faculty experts. Before designing the syllabus, the feedback from the employers, alumni and industry people are sought & analyzed to select and design a basket of inter-disciplinary courses.

Objectives of the Value-added Course are:

- To provide students an understanding of the expectations of industry
- To improve employability skills of students
- To bridge the skill gaps and make students industry ready
- To provide an opportunity to students develop their inter-disciplinary skills.

Guidelines for value added courses

- Value-added Course is not mandatory to qualify for any program.
- It is a faculty-assisted learning course open to all students without any additional fee.
- Classes for Value-added courses will be conducted during the RESERVED Time Slot in a week or beyond the regular class hours.
- The value-added courses may be also conducted during weekends / vacation period.

Course Completion

- Students will get a certificate after they have successfully completed the course
- The students who have successfully completed the Value-added Course will be issued with a certificate duly signed by the authorised signatories.

CERTIFICATE COURSE IN BAKERY

Introduction

The rapid population growth and influence has contributed to the popularity of global cuisines and desserts. The bakery industry and bakery products have become a common preference for all foodies. In the view of this preference, the demands for bakery items have increased. It has also contributed to the popularity of bakery and confectionery. The popular bakery chains are a proof of this popularity. While the increased popularity of ready-to-eat items have further ignited this sector. Traditionally, since time immemorial sweets and desserts have been a common part of the regular diet of man. Today, technological innovations are fuelling this element.

Jeevan Vikas Mahavidyalaya provides a **Bakery Certification Course** to equip students with expert bakery skills. This course is formulated catering to all the professional needs and requirements in the industry. This course imparts students with the comprehensive skills to become a professional baker or dessert chef.

THE SYLLABUS FOR CERTIFICATE COURSE IN IN BAKERY

Aspiring Bakers from a Certificate Course in Bakery are taught about creativity, multitasking abilities, discipline, personality development, good decision making skills, baking skills etc.

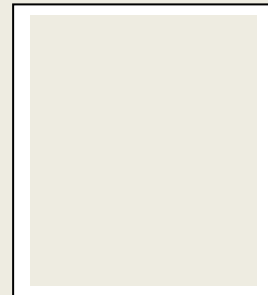

- **Baking Skill:** The most basic skills in bakery and confectionery are baking skills. Students are taught about baking breads, cookies, muffins etc.
- **Organizational Skills:** Bakers have to plan dessert menus and somewhat manage kitchen and accounting too. Students are taught organizational and kitchen management skills.
- **Frosting and icing Skills:** Frosting and icing are common steps for baking. Therefore, students are taught about preparing and using frosting and icing.
- **Freezing and melting Skills:** Frozen desserts, ice creams, candies, chocolates, custard etc are prepared by freezing and melting technique. So, Students are taught about freezing and melting skills
- **Knowledge of ingredients-** Students are introduced and taught about the use of different ingredients in baking and pastry-making.
- **Personality development skills:** Along with other desirable skills, students are taught good personality development skill to deal with guests at the outlet

ADD ON COURSES 2020-2021

What is a Add on Course?

Employment scene today requires that a student wanting a job be an all-rounder, with several skills. Pursuing multiple long-winding degree programs is no answer to this. Rather than spending a lifetime seeking higher qualifications, Value Added Courses give you the chance to update your skill set in only a fraction of the time and money. But, the value they create is very high.

Why should I do a Add on Course?

Value Added Courses are a fine way to fill the gaps in your knowledge and add competitive edge to your job prospects. As systems, programs and practices change, making it critical for job-seekers to have a range of competencies, Value Added Courses can help you to be a winner. Starting off with a Add on Course helps you to have a foundation on which to build your career. Many of these courses may lead you on to your own enterprise or to further qualifications, if needed.

Who can take admission to a Add on Course?

You can pursue these courses as per your requirement. Apart from Jeevan Vikas Mahavidyalaya students, even other students from anywhere can register for these courses.

About the Programme

The changes in the economy under the impact of globalization and technological advancement have changed the form and content of education in India. Rapid economic growth has opened up immense opportunities for youngsters to craft a successful career for themselves. But such prospects are no doubt always accompanied by fresh challenges. Unlike in the past, students when they step out of colleges are now expected to not only knowledge but also be already skilled. That is where the need to augment what gets taught in a college becomes important. The demand of employment market, today require that students come industry ready, possess multiple skills- sets. The college and Universities offer degree programs with the purpose of developing the intellectual calibre of individuals. Hence the curricula of these degree courses enrich the students' understanding and mastery of an area of knowledge. But, in the contemporary context, it is equally important for colleges to supplement the curriculum and equip the students to better meet the required levels of performance in the industry. No doubt, such supplementation might also develop their interests and aptitudes.

Today, time has come for our students to not only excel in their degree education but also acquire inter- disciplinary skills. Hence, we have launched Add on Courses.

How many courses can I do?

As the basic idea is to make ample opportunities available to students, there are no restrictions on how many courses a student can offer. One can acquire several certifications during the period of a degree program.

Will I get a Job because of Add on Courses?

The purpose of the Add on Courses is to make you industry-ready. Providing the finishing touches to the knowledge you gain in your degree program Add on Courses will polish your skills and enhance your employability. The College has a Placement Cell to assist you with your placement. You can register with this Cell and receive further guidance and some assistance in seeking jobs. The Cell also facilitates on or off campus interviews.

How to register for a Course?

Certificate Course in Communication Skill

Introduction

Communication is as old as the existence of human beings. It plays an essential role in all aspects of our professional and private lives. Most people would claim to be fairly confident and capable communicators. In reality, advanced communication skills are a rare and desirable asset. Becoming a better communicator means taking the time to consider how you are perceived by others. Communication skills are built on a foundation of confidence, self-awareness and positive relationships. Only then is it possible to communicate messages confidently and convincingly. Words are not the only way of getting your message across. Many times you can sense the mood your colleague or friend is in. How do you think you can figure it out? It is because communication involves not just words, but also actions, body language and facial expressions to mention a few. By studying the art of effective communication, you stand every chance of making major improvements to your career prospects and your relationships with other people.

Enroll now for this communication skills course with certificate available upon completion for a small fee and learn more about benefits of becoming a skilled communicator.

Objectives

- To know the concept of communication
- To learn about Verbal and non-verbal communication
- To understand the barriers in communication
- To learn to communicate effectively.

Outcomes

On completion of the course, you will learn how to communicate effectively using a combination of verbal and non-verbal communication skills with confidence.

Prerequisites

Basic knowledge of the English language is the only requirement.

Course Syllabus

This course comprises the following content:

- Basics and Importance of Communication
- Process of Communication
- Barriers to Communication
- Non-Verbal Communication
- Verbal Communication
- Effective Communication
- Creating Positive Relationships
- Growing Our Self-Awareness
- Developing Confidence

Certificate Course in Indian Constitution and Human Rights

Introduction

Human rights are the fundamental liberties that every person possesses by virtue of being a member of the human race. Regardless of race, nationality, religion, language, sex, or any other characteristic, it exists in every person. Natural law forms the basic idea of human rights. The overall development of each person's personality within society depends on the protection and availability of their human rights, which must be provided to everyone. These rights are so vital to people that they provide the best opportunities for both monetary and moral advancement. Taking into consideration the importance of human rights in life, the Department of Political Science of Jeevan Vikas Mahavidyalaya, Devgram is going to offer a certificate short term course in Indian Constitution and Human Rights.

Objectives:

- To get depth insight into the constitutional, statutory and institutional aspects of human rights protection in India.
- To understand the constitutional provisions dealing with human rights and special legislations dealing with protection of vulnerable and marginalized groups
- To discussion on institutional framework in India dealing with protection and enforcement of human rights.

Learning Outcomes:

By the end of the course students should be able to:

- Demonstrate a good understanding of the provisions under the Constitution of India dealing with human rights.
- Display a good understanding of the nature and scope of special legislations dealing with protection of human rights of marginalized and vulnerable sections.
- Demonstrate a good understanding of the practical application of human rights law to specific human rights problems in India.

Course Syllabus

Unite 1

- Introduction to National Human Rights Protection System
- Human Rights Provisions in the Constitution-I
- Human Rights Provisions in the Constitution-II

Unite 2:

- Directive Principles of State Policy and Fundamental Duties
- Relationship between Constitutional Law and International Human Rights Law

Unite 3:

- Introduction to Public Interest Litigation
- PIL – Prisoner’s Rights
- PIL – Environment I
- PIL – Environment II

Unite 4:

- PIL – Gender Justice
- PIL – Bonded Labour
- Human Rights Courts in India

Unite 5:

- Role of Legislature in the Protection of Human Rights
- Role of Executive in the Protection of Human Rights
- Introduction to Paris Principles

Unite 6:

- Protection of Human Rights Act, 1993
- National Human Rights Commission
- Activities of the National Human Rights Commission
- Critical evaluation of the National Human Rights Commission
- Role of NGOs in the Protection of Human Rights - III
- Role of Media in the Protection of Human Rights

2021-2022

Criterion1– Curricular Aspects.

1.2.1 Number of Certificate/Value added courses offered and online courses of MOOCs, SWAYAM, NPTEL etc. (where the students of the institution have enrolled and successfully completed during the last five years)

1.2.2 Percentage of students enrolled in Certificate/ Value added courses and also completed online courses of MOOCs, SWAYAM, NPTEL etc. as against the total number of students during the last five years

About the College

The roots of Antyoday Mission's Jeevan Vikas Mahavidyalaya run deep, which were sown by the philanthropist Dr. Bhausaheb Bhoge, the founder of institution. From the own experiences of educational struggle, Dr. Bhausaheb Bhoge realised that the unavailability of educational facilities and institution in rural area is the stumbling block in the prosperity of the people. This was precisely the driving force of the foundation of Jeevan Vikas Mahavidyalaya. In this region the main stay of the people of this is agriculture. In this situation the college plays vital role to cater the higher educational needs of the Antyodaya (socially and economically vulnerable), downtrodden and the studious students from the surrounding who are not able to migrate to big cities for their higher educational needs. The college is an educational hub that has all modern facilities and subjects which required for all-round development of students. Mahavidyalaya has now grown into a big tree

ADD ON COURSES

2021-2022

What is a Add on Course?

Employment scene today requires that a student wanting a job be an all-rounder, with several skills. Pursuing multiple long-winding degree programs is no answer to this. Rather than spending a lifetime seeking higher qualifications, Add on Courses give you the chance to update your skill set in only a fraction of the time and money. But, the value they create is very high.

Why should I do a Add on Course?

Add on Courses are a fine way to fill the gaps in your knowledge and add competitive edge to your job prospects. As systems, programs and practices change, making it critical for job-seekers to have a range of competencies, Add on Courses can help you to be a winner. Starting off with a Add on Course helps you to have a foundation on which to build your career. Many of these courses may lead you on to your own enterprise or to further qualifications, if needed.

Who can take admission to a Add on Course?

You can pursue these courses as per your requirement. Apart from JeevanVikasMahavidyalaya students, even other students from anywhere can register for these courses.

How many courses can I do?

As the basic idea is to make ample opportunities available to students, there are no restrictions on how many courses a student can offer. One can acquire several certifications during the period of a degree program.

About the Programme

The changes in the economy under the impact of globalization and technological advancement have changed the form and content of education in India. Rapid economic growth has opened up immense opportunities for youngsters to craft a successful career for themselves. But such prospects are no doubt always accompanied by fresh challenges. Unlike in the past, students when they step out of colleges are now expected to not only have knowledge but also be already skilled. That is where the need to augment what gets taught in a college becomes important. The demand of employment market, today requires that students come industry ready, possess multiple skills- sets. The college and Universities offer degree programs with the purpose of developing the intellectual calibre of individuals. Hence the curricula of these degree courses enrich the students' understanding and mastery of an area of knowledge. But, in the contemporary context, it is equally important for colleges to supplement the curriculum and equip the students to better meet the required levels of performance in the industry. No doubt, such supplementation might also develop their interests and aptitudes.

Today, time has come for our students to not only excel in their degree education but also acquire inter- disciplinary skills. Hence, we have launched Add on Courses.

Will I get a Job because of Add on Courses?

The purpose of the Add on Courses is to make you industry-ready. Providing the finishing touches to the knowledge you gain in your degree program, Add on Courses will polish your skills and enhance your employability. The College has a Placement Cell to assist you with your placement. You can register with this Cell and receive further guidance and some assistance in seeking jobs. The Cell also facilitates on or off campus interviews.

How to register for a Course?

The Courses are run by many departments. Each course has a Coordinator whose phone number is prominently displayed in the Brochure. You may contact these coordinators in person or by phone for details. You may visit the College website for more details as well.

What about the Certification?

Each course has its own assessment pattern. Successful completion of the course earns you Certification issued by the College

Certificate Course in Audit and Accounting

Introduction

Accounting is an essential aspect of every business, regardless of its size or industry. It serves as the foundation for financial stability, providing insights into a company's financial health and aiding in decision-making processes. It plays a crucial role in any organization by ensuring accurate financial records are maintained. It helps businesses track their income, expenses, assets, and liabilities, providing a clear picture of their financial position. Moreover, accounting enables businesses to comply with legal and regulatory requirements, assists in tax planning, and facilitates effective budgeting and forecasting. In today's rapidly evolving business landscape, organizations face numerous challenges when it comes to maintaining accountability and transparency. One crucial tool that helps address these challenges is auditing. Auditing serves as a systematic review and evaluation process that ensures the accuracy and reliability of financial records, internal controls, and compliance with regulations.

Objective

- To learn the Introduction and importance of Accounting and Auditing
- To understanding the types, scope of Accounting and Auditing
- To learn how to measure financial accounting for reputed businesses
- To understand the supporting factors of Auditing and how to audit client's accounts
- To learn how to get into an accounting, auditing & taxation career path

Course content

1. Introduction and importance of Accounting and Auditing
2. Types, Scope of Accounting and Auditing
3. How to measure financial accounting for reputed businesses
4. Supporting factors of Auditing and how to audit client's accounts
5. How to get into an Accounting and Auditing career path
8. Reporting and Communication in Audit Management
9. Quality Assurance and Improvement in Audit Administration.

- To understand about several types of filters
- To learn about surface water treatment plant
- To learn about sewage treatment plant process
- To learn about effluent treatment plants
- To understand desalination process
- To learn about reverse osmosis plants

Syllabus

- Introduction to water treatment
- Water Quality Characteristics
- Methods of Disinfection
- Chlorination
- All types of Filters
- Surface Water Treatment Plant
- Aeration Sedimentation Coagulation Flocculation
- Wastewater Characteristics
- Sewage Treatment Plant Process
- SBR MBR RBC MBBR FBBR
- Grit Removal
- Effluent Treatment Process
- Reverse Osmosis Plant

CERTIFICATE COURSE TRADITIONAL MEDICINAL PLANTS

Introduction

This course strategy will prove to be effective in creating awareness for benefits of Indian traditional plants, increasing conservation and employment as well as entrepreneurial opportunities. Various Indian traditional medicinal plants are in demand. This course strategy will prove to be effective in creating awareness for benefits of Indian traditional medicinal plants, increasing global market, yet many farmers, tribals and learners hardly know about how to cultivate and harvest or where to find market? This course intervention is focused on reclaiming sustainability in Indian traditional medicinal plants through educating learners with scientific knowledge, guidelines, quality policies, processing and developing a viable value addition and sustainable product

Objectives

- To aware learners about the rich Indian traditional knowledge of medicinal their protection, regulations, quality control and market.
- To clear myths and propose scientific evidences of traditional medicinal benefits.
- To aware learners about cultivation, conservation, value addition and socio-economic development through the knowledge of Indian Traditional Medicinal
- To aware learners to identify few important Traditional Medicinal plants
- To aware learners about Entrepreneurship and Start-up opportunities based on market for Indian Traditional Medicinal and Aromatic plants

Eligibility:

Any students who have interest in Medicinal Plants can enroll this course along with their graduation.

SYLLABUS

Unit I Indian Traditional Medicine System

- Introduction to Ayurveda, Siddha, Unani, Homeopathy, Homeopathy & Sowa-Rigpa Systems and Traditional Formulations
- Important Medicinal Plants mentioned in ancient texts
- Important Medicinal Plants mentioned in ancient texts
- Important Aromatic Plants mentioned in ancient texts

Unit II Raw Material-Cultivation, Collection and Processing

- Good Cultivation and Collection Practices guidelines-WHO, NMPB-AYUSH, Voluntary Certification Scheme for Medicinal Plant Produce, Conservation of rare and endangered traditional plants,
- Subsidies from Indian Government, Buyback Agreement and Contract farming with AYUSH and other Companies

Unit III Raw Material-Cultivation, Collection and Processing

- Good Cultivation and Collection Practices guidelines-WHO, NMPB-AYUSH, Voluntary Certification Scheme for Medici
- Medicinal Plant Extracts
- Value added products: AYUSH Products, food, nutraceuticals, cosmetics and agrochemicals, Entrepreneurship and start up opportunities in Plants (Licensing and manufacturing)

Unit IV Quality control, Standards and Regulations of traditional Plant Drugs

- WHO and ICH Guidelines
- AYUSH, CDSCO and FSSAI Guidelines
- Case Study - Quality Control of Traditional Formulations
- Comparative evaluation of Pharmacopoeial standards – Licorice and Comparative evaluation of Pharmacopoeial standards- Ashwagandha

Unit IV Safety, Efficacy and Toxicity of traditional Plant Drugs

- Preclinical evaluation -In vitro, In vivo, Ex vivo Evaluation
- Clinical evaluation Guidelines, Pharmacovigilance

Unit IV Market Analysis and Success Stories

- Import and Export of Medicinal and Aromatic Plants, derived products, HSN Code
- Success stories of drug discovery based on traditional knowledge
- Institutes involved in Medicinal Plant Research
- Industries involved in Medicinal Products

Criterion1– Curricular Aspects.

1.2.1 Number of Certificate/Value added courses offered and online courses of MOOCs, SWAYAM, NPTEL etc. (where the students of the institution have enrolled and successfully completed during the last five years)

1.2.2 Percentage of students enrolled in Certificate/ Value added courses and also completed online courses of MOOCs, SWAYAM, NPTEL etc. as against the total number of students during the last five years

About the College

The roots of Antyodaya Mission's Jeevan Vikas Mahavidyalaya run deep, which were sown by the philanthropist Dr. Bhausaheb Bhoge, the founder of institution. From the own experiences of educational struggle, Dr. Bhausaheb Bhoge realised that the unavailability of educational facilities and institution in rural area is the stumbling block in the prosperity of the people. This was precisely the driving force of the foundation of Jeevan Vikas Mahavidyalaya. In this region the main stay of the people of this is agriculture. In this situation the college plays vital role to cater the higher educational needs of the Antyodaya (socially and economically vulnerable), downtrodden and the studious students from the surrounding who are not able to migrate to big cities for their higher educational needs. The college is an educational hub that has all modern facilities and subjects which required for all-round development of students. Mahavidyalaya has now grown into a big tree

ADD ON COURSES 2022-2023

What is a Add on Course?

Employment scene today requires that a student wanting a job be an all-rounder, with several skills. Pursuing multiple long-winding degree programs is no answer to this. Rather than spending a lifetime seeking higher qualifications, Add on Courses give you the chance to update your skill set in only a fraction of the time and money. But, the value they create is very high.

Why should I do a Add on Course?

Add on Courses are a fine way to fill the gaps in your knowledge and add competitive edge to your job prospects. As systems, programs and practices change, making it critical for job-seekers to have a range of competencies, **Add on** Courses can help you to be a winner. Starting off with a Add on Course helps you to have a foundation on which to build your career. Many of these courses may lead you on to your own enterprise or to further qualifications, if needed.

Who can take admission to a Add on Course?

You can pursue these courses as per your requirement. Apart from JeevanVikasMahavidyalaya students, even other students from anywhere can register for these courses.

How many courses can I do?

As the basic idea is to make ample opportunities available to students, there are no restrictions on how many

About the Programme

The changes in the economy under the impact of globalization and technological advancement have changed the form and content of education in India. Rapid economic growth has opened up immense opportunities for youngsters to craft a successful career for themselves. But such prospects are no doubt always accompanied by fresh challenges. Unlike in the past, students when they step out of colleges are now expected to not only knowledge but also be already skilled. That is where the need to augment what gets taught in a college becomes important. The demand of employment market, today require that students come industry ready, possess multiple skills- sets. The college and Universities offer degree programs with the purpose of developing the intellectual calibre of individuals. Hence the curricula of these degree courses enrich the students' understanding and mastery of an area of knowledge. But, in the contemporary context, it is equally important for colleges to supplement the curriculum and equip the students to better meet the required levels of performance in the industry. No doubt, such supplementation might also develop their interests and aptitudes.

Today, time has come for our students to not only excel in their degree education but also acquire inter- disciplinary skills. Hence, we have launched Add on Courses.

courses a student can offer. One can acquire several certifications during the period of a degree program.

Will I get a Job because of Add on Courses?

The purpose of the Add on Courses is to make you industry-ready. Providing the finishing touches to the knowledge you gain in your degree program, Add on Courses will polish your skills and enhance your employability. The College has a Placement Cell to assist you with your placement. You can register with this Cell and receive further guidance and some assistance in seeking jobs. The Cell also facilitates on or off campus interviews.

How to register for a Course?

The Courses are run by many departments. Each course has a Coordinator whose phone number is prominently displayed in the Brochure. You may contact these coordinators in person or by phone for details. You may visit the College website for more details as well.

What about the Certification?

Each course has its own assessment pattern. Successful completion of the course earns you Certification issued by the College

CERTIFICATE COURSE ON ROLE OF SELF HELP IN VILLAGE DEVELOPMENT

INTRODUCTION

Rural development is a very dynamic process that aims to enhance the socioeconomic, political, environmental, and general well-being of the underprivileged residents of rural areas. In India, where more than 68% of the population resides in rural areas, the idea of rural development assumes considerable relevance. Self Help Groups are community volunteer organizations that come together to address issues like poverty, illiteracy, violence, etc. Women coming together for a common cause are a big reason why self-help groups are so well known. These organizations are particularly active in rural communities and actively support rural development. Both registered and unregistered, the government provides financial assistance to these organizations and supports their growth so they can build various industries that would help rural areas thrive. Taking into consideration the role of Self Help Groups in development of rural areas the department of Sociology has started the certificate course on role of self help group in village development.

OBJECTIVES:-

- To know the concept Self Help Group
- To know the concept of Village Development
- To understand the role of SHGs in development of rural areas of India.
- To identify the challenges faced by SHGs in India.

CERTIFICATE COURSE IN MARATHI ON GRAMGEETA

INTRODUCTION

Today, new generation is always blamed for going astray. Blame game goes on. Some blame social media while others say that the interest, hobbies and tastes of new generation have changed. Whatever may be the reasons, but it is true that now a days students are not very serious about reading literature. Now question comes, how to tackle this problem? After having deliberated on this issue, the college felt that the students should be taught lessons in value education and ethics. Keeping this objective in mind, it is decided to introduce 'Certificate course in Marathi on gramgeeta' for under graduate students. It is through the curriculum of this examination the college desires to inculcate values amongst the students for developing their personality. We believe that the character of the students can be shaped by teaching them the life lessons and literature of great saints like Sant Tukdoji Maharaj, Sant Gadge Maharaj etc. Since most of the students of our college hail from rural area, we thought it fit to teach them the literature of Sant Tukdoji Maharaj, a great social reformer and a litterateur.

OBJECTIVE

- To develop an idea of self-reliant village among the students.
- To initiate novel ideas among the students for the development of the village.
- To inculcate sense of conduct and discipline to become a good and conscientious individual.
- To nurture the idea of nationalism, secularism and patriotism among the students.
- To create a sense of communal harmony among the students.
- To study the life and literature of Rashtrasant Tukdoji Maharaj.
- To follow the principles of Rashtrasant Tukdoji Maharaj as reflected in his oeuvre.

SYLLABUS

Unit I : Rashtrasant Tukadoji Maharaj: Life history

Unit II: Rashtrasant Tukadoji Maharaj: Introduction of his literature

Unit III: Philosophy in 'Gramgeeta'

- Self-reliant village,
- Nationalism, secularism and patriotism
- Communal harmony
- Conduct and discipline to become a good and conscientious individual
- Responsibilities of youth
- Gender equality

Unit IV: Relevance of Philosophy in 'Gramgeeta' in day to day Life

CERTIFICATE COURSE IN CLUSTER FARMING

CLUSTER FARMING

Cluster farming is a move aimed at making Indian produce globally competitive and also to boost farmers' income. A horticulture cluster is defined as a regional/geographical concentration of targeted horticulture crops, offering scope for specialization in production, post-harvest management, marketing and exports. With cluster farming, the economy of scale goes up, and with it the input costs become much cheaper, the productivity increases and the farmers can get the best possible prices for their produce. These clusters provide growth and development opportunities to stakeholders. Taking into consideration the importance of cluster farming the department of Botany has started the certificate course in Cluster Farming

OBJECTIVES

- To know the concept of cluster farming
- To understand the Challenges in Cluster farming
- To know the impact of cluster Farming on farmers' life
- To evaluate the Government's Cluster development program

SYLLABUS

- Concept of cluster Farming
- The principles of cluster farming
- The main features of cluster farming
- Cluster farming and Technology
- Advantage of cluster farming
- Challenges in Cluster farming
- Government's Cluster development program
- Impact of cluster Farming on farmers' life

CERTIFICATE COURSE IN ORGANIC VEGETABLE

INTRODUCTION

Combating the threats posed by chemical fertilizers and pesticides in conventional agriculture, organic vegetable emerges as a sustainable alternative. With practices like crop rotation, the use of crop residues, organic manures, and biological pest control, organic farming seeks to harmonize tradition, innovation, and science. This holistic approach ensures environmental protection, minimizing pollution, and contributing to the economy. Certificate course like Organic vegetable is need of hour for sustainable agriculture for a healthier and balanced future.

SYLLABUS

- Introduction to organic vegetable
- Components of Organic farming
- IFS model of organic vegetable cultivation
- Technology in organic vegetable cultivation s
- Soil health management
- Integrated pest management
- Indigenous technical knowledge

Subject: Sanction for Conducting Short Term Online Courses under Jeevan Shikshan Abhiyan on No Grant Basis.

Sir/Madam,

With reference to your proposal for conducting Short Term courses indicated below under Jeevan Shikshan Abhiyan of this Department, this is to inform you that your proposal has been accepted and your College has been granted permission to conduct the online course on the following conditions:

Details of the Course

Sr. No	Name of Course	Name of Course Coordinator	Duration	Credit	No of Candidates to be admitted	Fee to be charge per students	Fee to be deposited With the Deptt.
1	Certificate Course in Proficiency in English	Dr. Yogesh Sarode	37 hr.	2	60	200	10%
2	Certificate Course on Understanding Political Concept	Dr. Mangesh Acharya	36 hr	2	60	200	10%
3	Certificate Course on Vedic Maths	Dr. Kalyani Thakre	37 hr.	2	60	200	10%
4	Certificate Course on Digital Banking	Dr. Raju Shrirame	36 hr	2	60	200	10%

Rules & Regulations of this Department regarding these courses should be strictly followed.

1. **This sanction is valid for this particular Batch only.**
2. Fees for the course should be charged as per the norms prescribed
3. Expenditure on the course should be incurred as per norms.
4. Course should be started within a Month from **the date of sanction.**

Please communicate your acceptance within **a month and submit the Initial Report**

5. **Submit the List of Students admitted in the excel format attached herewith.**
Also send a soft copy in CD/Pen drive.

Your's faithfully,

Director

CERTIFICATE COURSE IN PROFICIENCY IN ENGLISH

ABOUT THE COURSE

This course focuses on equipping participants with the fundamentals of English required for both good Listening and Speaking Skills, and Reading and Writing. This course can help in better communication among peer group members and at work place. With the emergence of the global market-place, the English language has found its place as the global medium of communication. Most of us would like to believe that fluency in English is the capability to read and write, but listening and speaking are also very important. Far too often this is neglected in the learning of a language.

COURSE OBJECTIVES:

- To improve the four skills of Listening, Speaking, Reading, and Writing
- To give a base for necessary phonetics, vast vocabulary and good grammar
- To use the language in specific situations
- To improve learners' comprehension, interaction and fluency
- To equip the learners with strategies to improve their communication skills
- To ensure that the training is useful to the learners to succeed in the real world

EXPECTED LEARNING OUTCOMES

- Eliminating Mother Tongue Influences Indianism
- Articulating Words
- Maximizing on your natural style
- Correct Grammar
- Eliminating Redundancies
- Using the right word at the right time
- Softening a negative message
- Presenting with Greater Clarity and Confidence
- Handling Questions and Objections Positively
- Being Concise
- Framing effective questions
- Choosing the right tone
- Structuring paragraphs and sentences
- Writing to keep the reader engaged

ELIGIBILITY FOR ADMISSION

The course is open to all those interested in bettering their English Language skills. The minimum qualification for the participants is that they have passed their HSC or an equivalent examination.

COURSE CONTENT

Unit 1: Listening

- Listening and responding to simple narratives, statements, questions, straightforward explanations and instructions (both face-to face and on the telephone)
- Listening and responding to spoken language and following detailed explanations and multi-step instructions of varying length.

Unit 2: Speaking

- Speaking to communicate basic information, feelings and opinions on familiar topics using appropriate formality, both face-to-face and on the telephone
- Speaking to communicate straightforward and detailed information, ideas and opinions clearly, adapting speech and content to take account of the listener(s), medium, purpose and situation

Unit 3: Reading

- To apply relevant reading strategy, distinguish between facts and opinions, decipher facts and make inferences

Unit 4: Writing

- Writing to communicate basic information, feelings and opinions on familiar topics.

Certificate Course on Understanding Political Concept

Introduction

THE COURSE 'UNDERSTANDING POLITICAL CONCEPTS' is very useful for students. The aim of the course is to provide students with a solid understanding of key political concepts and their relevance in political theory and practice. The students are prepared to critically analyze and engage with political phenomena, contribute to informed discussions, and apply their understanding of political concepts in various academic and professional contexts. Political science discourse brings us face to face with many important concepts like authority, democracy, right, justice, equality and power. However, all of them are used differently in different contexts, and their specific meaning depends on the theory they relate to. There is no way around such puzzling diversity. Students of political science simply have to accept this challenge. Yet, the diversity of political science concepts can be used as a powerful resource for learning, through intellectual techniques for stirring personal creativity. This Certificate course on 'Understanding Political Concept' teaches conceptual thinking and elementary theory- building, an interactive dictionary for understanding and working with the most central concepts in political science. Its aim is to provide students with fresh critical insights about key political concepts, offering a methodology by which users can unpack and reconstruct them on their own. In this way this certificate course is benedictional for students.

Objectives

1. **Understanding Fundamental Political Concepts:** Students should develop a clear understanding of fundamental political concepts such as power, authority, sovereignty, legitimacy, democracy, citizenship, rights, and justice. They should be able to define and explain these concepts and identify their significance in political theory and practice.
2. **Critical Evaluation of Political Concepts:** Students should develop the ability to critically evaluate political concepts and theories. They should analyze different interpretations and definitions of these concepts, identify their strengths and weaknesses, and assess their relevance and applicability in diverse political contexts.
3. **Application of Political Concepts:** Students should be able to apply political concepts to analyze and understand real-world political phenomena. They should be able to identify and interpret political concepts in practice, such as analyzing power dynamics in government institutions, examining the exercise of authority in international relations, or assessing the impact of rights and justice in social movements.

SYLLABUS

Sr. No.	Content
Unit I:	Equality:- Meaning and Definition, Dimensions, Characteristics of Dimensions of Equality, Equality and Liberty
Unit II	Rights Meaning and Definition, theories; different kinds of rights; concept of Human Right
Unit III	Justice Meaning and Definition, Distributive Justice, Social Justice, Criticism of Social Justice, Procedural Justice, Justice: A Term Of Synthesis
Unit IV	Power Meaning and definition, Sources of Power, The concept of power Tactics
Unit V	Democracy Meaning and Definition, Fundamentals Principles of Democracy and Types

CERTIFICATE COURSE ON VEDIC MATHS

Introduction

Vedic Mathematics is a super-fast way of calculation whereby you can do supposedly complex calculations. like 996×998 in less than five seconds flat. It is highly beneficial for school and college students and students who are appearing for their entrance examinations.

Vedic Mathematics is far more systematic, simplified and unified than the conventional system. It is a mental tool for calculation that encourages the development and use of intuition and innovation, while giving the student a lot of flexibility, fun and satisfaction. It means giving them a competitive edge, a way to optimize their performance and gives them an edge in mathematics and logic that will help them to shine in the classroom and beyond.

Therefore it's direct and easy to implement in schools – a reason behind its enormous popularity among academicians and students. It complements the Mathematics curriculum conventionally taught in schools by acting as a powerful checking tool and goes to save precious time in examinations. The methods & techniques are based on the pioneering work of late Swami Shri. Bharati Krishna Tirthaji, Shankracharya of Puri, who established the system from the study of ancient Vedic texts coupled with a profound insight into the natural process of mathematical reasoning.

There are just 16 Sutras or Word Formulae which solve all known mathematical problems in the branches of Arithmetic, Algebra, Geometry and Calculus. They are easy to understand, easy to apply and easy to remember.

Objectives

- To enable the learners to explore the power of Vedic Maths.
- To make learners strong in Numerical Maths.
- To enable learners to recognize and understand simple techniques of Arithmetic Calculations.
- To train learners to use the ideas of Vedic Maths in daily calculations and make those calculations with accuracy and speed.

SYLLABUS

UNIT	DETAILED SYLLABUS
1	History and Evolution of Vedic Mathematics, Introduction of Basic Vedic Mathematics Techniques in Multiplication (Special Case, Series of 9, Series of 1 etc), Tables etc., Comparison of Standard Methods with Vedic Methods.
2	Various techniques to carry out basic operations covering Addition, Subtraction, Multiplication, Division, Complements and Bases, Vinculum number, General multiplication (Vertically Cross-wise).
3	Multiplications by numbers near base, verifying answers by use of digital roots, Divisibility tests, Division of numbers near base, Comparison of fractions.
4	Applications of Vinculum, Different methods of Squares (General method, Base method, Duplex method etc.)
5	Cubes, Cube roots, square roots, General division
6	Quadratic Equations, Simultaneous Equations, use of various Vedic Techniques for answering numerical aptitude questions from Competitive Examinations

JEEVAN VIKAS MAHAVIDYALAYA DEVGRAM Tah. Narkhed, Dist. Nagpur

About the College

The roots of Antyoday Mission's Jeevan Vikas Mahavidyalaya run deep, which were sown by the philanthropist Dr. Bhausaheb Bhoge, the founder of institution. From the own experiences of educational struggle, Dr. Bhausaheb Bhoge realised that the unavailability of educational facilities and institution in rural area is the stumbling block in the prosperity of the people. This was precisely the driving force of the foundation of Jeevan Vikas Mahavidyalaya. In this region the main stay of the people of this is agriculture. In this situation the college plays vital role to cater the higher educational needs of the Antyodaya (socially and economically vulnerable), downtrodden and the studious students from the surrounding who are not able to migrate to big cities for their higher educational needs. The college is an educational hub that has all modern facilities and subjects which required for all-round development of students. Mahavidyalaya has now grown into a

ADD ON COURSES 2023-2024

What is a Add on Course?

Employment scene today requires that a student wanting a job be an all-rounder, with several skills. Pursuing multiple long-winding degree programs is no answer to this. Rather than spending a lifetime seeking higher qualifications, Add on Courses give you the chance to update your skill set in only a fraction of the time and money. But, the value they create is very high.

Why should I do a Add on Course?

Value Added Courses are a fine way to fill the gaps in your knowledge and add competitive edge to your job prospects. As systems, programs and practices change, making it critical for job-seekers to have a range of competencies, Value Added Courses can help you to be a winner. Starting off with a Add on Course helps you to have a foundation on which to build your career. Many of these courses may lead you on to your own enterprise or to further qualifications, if needed.

Who can take admission to a Add on Course?

You can pursue these courses as per your requirement. Apart from JeevanVikasMahavidyalaya students, even other students from anywhere can register for these courses.

About the Programme

The changes in the economy under the impact of globalization and technological advancement have changed the form and content of education in India. Rapid economic growth has opened up immense opportunities for youngsters to craft a successful career for themselves. But such prospects are no doubt always accompanied by fresh challenges. Unlike in the past, students when they step out of colleges are now expected to not only knowledge but also be already skilled. That is where the need to augment what gets taught in a college becomes important. The demand of employment market, today require that students come industry ready, possess multiple skills- sets. The college and Universities offer degree programs with the purpose of developing the intellectual calibre of individuals. Hence the curricula of these degree courses enrich the students' understanding and mastery of an area of knowledge. But, in the contemporary context, it is equally important for colleges to supplement the curriculum and equip the students to better meet the required levels of performance in the industry. No doubt, such supplementation might also develop their interests and aptitudes. Today, time has come for our students to not only excel in their degree education but also acquire inter- disciplinary skills. Hence, we have launched Add on Courses.

How many courses can I do?

As the basic idea is to make ample opportunities available to students, there are no restrictions on how many courses a student can offer. One can acquire several certifications during the period of a degree program.

Will I get a Job because of Add on Courses?

The purpose of the Add on Courses is to make you industry-ready. Providing the finishing touches to the knowledge you gain in your degree program Add on Courses will polish your skills and enhance your employability. The College has a Placement Cell to assist you with your placement. You can register with this Cell and receive further guidance and some assistance in seeking jobs. The Cell also facilitates on or off campus interviews.

How to register for a Course?

The Courses are run by many departments. Each course has a Coordinator whose phone number is prominently displayed in the Brochure. You may contact these coordinators in person or by phone for details. You may visit the College website for more details as well.

What about the Certification?

Each course has its own assessment pattern. Successful completion of the course earns you Certification issued by the College

CERTIFICATE COURSE IN LEADERSHIP DEVELOPMENT

Introduction

Most people believe that leaders are born, not made - that leadership qualities are either inherent in a person, or they are not. And to most, the act of leadership appears to be a fine art of balanced movement, towards any particular goal.

We at JVM, however, concern ourselves with the scientific aspects of Leadership, and see it as a defined science - and strongly believe that with careful practice and mentoring, leadership can be imbibed by anyone. This is the basic premise behind the certificate course in Leadership. It gives students an opportunity to understand what it takes to make a good leader - answering questions such as what leadership styles are suited for what kind of situations, or what character traits are necessary in order to inculcate leadership values. This course is the first step that students can take towards becoming an efficient, effective and experienced leader.

Objectives

- Acquire an understanding of oneself and build inner stability.
- Describe various leadership styles and how to lead downwards.
- Explain the biases that impact communication and a leader's decision-making capability.
- Explore the art of leading upward and sideways
